

FLOOR RETURN INLET

Made of high-strength ABS, this floor return inlet is designed to inject filtered water from the bottom of the pool. It promotes even water circulation, reduces dead zones and improves the overall efficiency of the filtration system. Ideal for residential and semi-commercial pools.

Model	A	B	C	D	E	F
PADF2825-C	108	60	50	73,12	67,1	6,02

Features

Connection Ø 50 mm (solvent weld)

Recommended flow rate 4 to 7 m³/h per inlet

Vertical jet

Floor installation, suitable for concrete pools

Low-profile cover with integrated anti-vortex grille

Resistant to UV, chlorine and pool treatment chemicals
